Slugger 3GL has excellent color. It is dark green and blends well with other varieties.

2017 NTEP TMean Genetic Color Rating

**WEAR TOLERANCE**

Slugger 3GL has excellent wear tolerance ranking at the top of the NTEP trial.

2017 NTEP Trial Mean Turfgrass Quality Under Traffic Stress at OSU

**SEEDING AND OVERSEEDING** Slugger 3GL readily establishes on loosened bare soil or after verticutting existing turf for renovation and overseeding. For typical new seeding applications, apply at a rate of 5-7 lbs. per 1000 sq. ft. Periodic reseeding at 3-5 lbs. per 1000 sq. ft. maintains density for visual appearance and durability. For overseeding dormant warm-season grasses, a rate of 30-40 lbs. per 1000 sq. ft. is suggested for gold course greens. And 7-10 lbs. per 1000 sq. ft. (300-450 lbs. per acre) for tees, fairways, and roughs.

**MAINTENANCE** Slugger 3GL will form a tight knit turf under a broad range of soil types and environmental conditions, from full sun to medium shade. It will mow cleanly at heights of 1/2" and above.
