

## BIG LEAGUE

PERENNIAL RYEGRASS

- RAPID GERMINATION
- FAST ESTABLISHMENT
- EXCELLENT TURF QUALITY
- DARK GREEN
- SELECTED FOR OVERSEEDING

## THE LEAGUE LEADER IN ESTABLISHMENT

**Big League** is a leading perennial ryegrass in a number of important turfgrass categories. **Big League** was specifically selected for overseeding due to its rapid germination and fast establishment. **Big League** provides cover quickly allowing for use sooner than other varieties. **Big League** is also a very attractive turf, scoring high in turfgrass color, quality and leaf texture and ranking second in overall quality at the recent NC State trial. In addition, once **Big League** has completely established, it will grow slower resulting in fewer mowings and less clippings.

**7-DAY % TURFGRASS COVER**

Big League germinates and establishes very fast, ranking near the top in the recent NC State trial.

*2016/2017 NC State Winter Overseeding Trials on Athletic Fields/Fairway Height Bermudagrass*

**TURFGRASS QUALITY - MEAN**

Big League has excellent turf quality, ranking second in overall quality in the recent NC State trial.

*2016/2017 NC State Winter Overseeding Trials on Athletic Fields/Fairway Height Bermudagrass*

**TURFGRASS COLOR - MEAN**

Big League has excellent color, maintaining its dark green hue all season long.

*2016/2017 NC State Winter Overseeding Trials on Athletic Fields/Fairway Height Bermudagrass*

**AREAS OF USE**

- LANDSCAPED AREAS
- SPORTS TURF
- FAIRWAYS
- WARM-SEASON OVERSEEDING
- RESIDENTIAL LAWNS

**ARIZONA DATA**

LSD VALUE	1.1	0.7	0.8

*2015-2016 UNIVERSITY OF ARIZONA OVERSEED FAIRWAY TRIALS*

**SEEDING AND OVERSEEDING** Big League readily establishes on loosened bare soil or after verticutting existing turf for renovation and overseeding. For typical new seeding applications, apply at a rate of 5-7 lbs. per 1000 sq. ft. Periodic reseeding at 3-5 lbs. per 1000 sq. ft. maintains density for visual appearance and durability. For overseeding dormant warm season grasses, a rate of 30-40 lbs. per 1000 sq. ft. is suggested for golf course greens. And 7-10 lbs. per 1000 sq. ft. (300-450 lbs. per acre) for tees, fairways and roughs.

**MAINTENANCE** Big League will form a tight knit turf under a broad range of soil types and environmental conditions, from full sun to medium shade. It will mow cleanly at heights of 1/2" and above. Big League can be maintained at fairway cutting heights when appropriate management practices are observed.
